The Dallas Police Department was NIBRS certified June 2018 with Crime Data from March of 2018 forward. All crime counts prior to March 2018 are calculated using the NIBRS counting rules but are not recognized as officially NIBRS and were added for comparative purposes only. In the Crime Against Society group there are offenses that didn't exist in 2017 because they were direct file arrest only, therefore greatly skewing the percent change values in that group. This also greatly affects the overall percent changes. In the Crime Category Robbery prior to NIBRS each Robbery incident counted per incident. NIBRS Robberies count each victim (All victims which includes reporting persons). Because of this counting rule prior to March 2018, we included the reporting persons from Jan 2017 - Feb 2018. Crime counts are based on UCR NIBRS rules therefore, cannot be compared to crime counts based on UCR Summary rules. These statistics are preliminary counts of the original police incident reports and may vary from the final UCR (Uniform Crime Reporting) statistics published by the FBI. The above NIBRS crime statistics listed are not final and sometimes adjusted throughout the year due to re-classifications after being investigated or reports filed later by a victim daily.

The Dallas Police Department was NIBRS certified June 2018 with Crime Data from March of 2018 forward. All crime counts prior to March 2018 are calculated using the NIBRS counting rules but are not recognized as officially NIBRS and were added for comparative purposes only. In the Crime Against Society group there are offenses that didn't exist in 2017 because they were direct file arrest only, therefore greatly skewing the percent change values in that group. This also greatly affects the overall percent changes. In the Crime Category Robbery prior to NIBRS each Robbery incident counted per incident. NIBRS Robberies count each victim (All victims which includes reporting persons). Because of this counting rule prior to March 2018, we included the reporting persons from Jan 2017 - Feb 2018. Crime counts are based on UCR NIBRS rules therefore, cannot be compared to crime counts based on UCR Summary rules. These statistics are preliminary counts of the original police incident reports and may vary from the final UCR (Uniform Crime Reporting) statistics published by the FBI. The above NIBRS crime statistics listed are not final and sometimes adjusted throughout the year due to re-classifications after being investigated or reports filed later by a victim daily.

The Dallas Police Department was NIBRS certified June 2018 with Crime Data from March of 2018 forward. All crime counts prior to March 2018 are calculated using the NIBRS counting rules but are not recognized as officially NIBRS and were added for comparative purposes only. In the Crime Against Society group there are offenses that didn't exist in 2017 because they were direct file arrest only, therefore greatly skewing the percent change values in that group. This also greatly affects the overall percent changes. In the Crime Category Robbery prior to NIBRS each Robbery incident counted per incident. NIBRS Robberies count each victim (All victims which includes reporting persons). Because of this counting rule prior to March 2018, we included the reporting persons from Jan 2017 - Feb 2018. Crime counts are based on UCR NIBRS rules therefore, cannot be compared to crime counts based on UCR Summary rules. These statistics are preliminary counts of the original police incident reports and may vary from the final UCR (Uniform Crime Reporting) statistics published by the FBI. The above NIBRS crime statistics listed are not final and sometimes adjusted throughout the year due to re-classifications after being investigated or reports filed later by a victim daily.

The Dallas Police Department was NIBRS certified June 2018 with Crime Data from March of 2018 forward. All crime counts prior to March 2018 are calculated using the NIBRS counting rules but are not recognized as officially NIBRS and were added for comparative purposes only. In the Crime Against Society group there are offenses that didn't exist in 2017 because they were direct file arrest only, therefore greatly skewing the percent change values in that group. This also greatly affects the overall percent changes. In the Crime Category Robbery prior to NIBRS each Robbery incident counted per incident. NIBRS Robberies count each victim (All victims which includes reporting persons). Because of this counting rule prior to March 2018, we included the reporting persons from Jan 2017 – Feb 2018. Crime counts are based on UCR NIBRS rules therefore, cannot be compared to crime counts based on UCR Summary rules. These statistics are preliminary counts of the original police incident reports and may vary from the final UCR (Uniform Crime Reporting) statistics published by the FBI. The above NIBRS crime statistics listed are not final and sometimes adjusted throughout the year due to re-classifications after being investigated or reports filed later by a victim daily.

The Dallas Police Department was NIBRS certified June 2018 with Crime Data from March of 2018 forward. All crime counts prior to March 2018 are calculated using the NIBRS counting rules but are not recognized as officially NIBRS and were added for comparative purposes only. In the Crime Against Society group there are offenses that didn't exist in 2017 because they were direct file arrest only, therefore greatly skewing the percent change values in that group. This also greatly affects the overall percent changes. In the Crime Category Robbery prior to NIBRS each Robbery incident counted per incident. NIBRS Robberies count each victim (All victims which includes reporting persons). Because of this counting rule prior to March 2018, we included the reporting persons from Jan 2017 – Feb 2018. Crime counts are based on UCR NIBRS rules therefore, cannot be compared to crime counts based on UCR Summary rules. These statistics are preliminary counts of the original police incident reports and may vary from the final UCR (Uniform Crime Reporting) statistics published by the FBI. The above NIBRS crime statistics listed are not final and sometimes adjusted throughout the year due to re-classifications after being investigated or reports filed later by a victim daily.

The Dallas Police Department was NIBRS certified June 2018 with Crime Data from March of 2018 forward. All crime counts prior to March 2018 are calculated using the NIBRS counting rules but are not recognized as officially NIBRS and were added for comparative purposes only. In the Crime Against Society group there are offenses that didn't exist in 2017 because they were direct file arrest only, therefore greatly skewing the percent change values in that group. This also greatly affects the overall percent changes. In the Crime Category Robbery prior to NIBRS each Robbery incident counted per incident. NIBRS Robberies count each victim (All victims which includes reporting persons). Because of this counting rule prior to March 2018, we included the reporting persons from Jan 2017 – Feb 2018. Crime counts are based on UCR NIBRS rules therefore, cannot be compared to crime counts based on UCR Summary rules. These statistics are preliminary counts of the original police incident reports and may vary from the final UCR (Uniform Crime Reporting) statistics published by the FBI. *The Dallas Police Department was NIBRS certified June 2018 with Crime Data from March of 2018 forward. All crime counts prior to March 2018 are calculated using the NIBRS counting rules but are not recognized as officially NIBRS and were added for comparative purposes only. In the Crime Against Society group there are offenses that didn't exist in 2017 because they were direct file arrest only, therefore greatly skewing the percent change values in that group. This also greatly affects the overall percent changes. In the Crime Category Robbery prior to NIBRS each Robbery incident counted per incident. NIBRS Robberies count each victim (All victims which includes reporting persons). Because of this counting rule prior to March 2018, we included the reporting persons from Jan 2017 – Feb 2018. Crime counts are based on UCR NIBRS rules therefore, cannot be compared to crime counts based on UCR Summary rules. These statistics are preliminary counts of the original police incident reports and may vary from the final UCR (Uniform Crime Reporting) statistics published by the FBI. The above NIBRS crime statistics listed are not final and sometimes adjusted throughout the year due to re-classifications after being investigated or reports filed later by a victim daily.*

The Dallas Police Department was NIBRS certified June 2018 with Crime Data from March of 2018 forward. All crime counts prior to March 2018 are calculated using the NIBRS counting rules but are not recognized as officially NIBRS and were added for comparative purposes only. In the Crime Against Society group there are offenses that didn't exist in 2017 because they were direct file arrest only, therefore greatly skewing the percent change values in that group. This also greatly affects the overall percent changes. In the Crime Category Robbery prior to NIBRS each Robbery incident counted per incident. NIBRS Robberies count each victim (All victims which includes reporting persons). Because of this counting rule prior to March 2018, we included the reporting persons from Jan 2017 – Feb 2018. Crime counts are based on UCR NIBRS rules therefore, cannot be compared to crime counts based on UCR Summary rules. These statistics are preliminary counts of the original police incident reports and may vary from the final UCR (Uniform Crime Reporting) statistics published by the FBI. The above NIBRS crime statistics listed are not final and sometimes adjusted throughout the year due to re-classifications after being investigated or reports filed later by a victim daily.

The Dallas Police Department was NIBRS certified June 2018 with Crime Data from March of 2018 forward. All crime counts prior to March 2018 are calculated using the NIBRS counting rules but are not recognized as officially NIBRS and were added for comparative purposes only. In the Crime Against Society group there are offenses that didn't exist in 2017 because they were direct file arrest only, therefore greatly skewing the percent change values in that group. This also greatly affects the overall percent changes. In the Crime Category Robbery prior to NIBRS each Robbery incident counted per incident. NIBRS Robberies count each victim (All victims which includes reporting persons). Because of this counting rule prior to March 2018, we included the reporting persons from Jan 2017 – Feb 2018. Crime counts are based on UCR NIBRS rules therefore, cannot be compared to crime counts based on UCR Summary rules. These statistics are preliminary counts of the original police incident reports and may vary from the final UCR (Uniform Crime Reporting) statistics published by the FBI. The above NIBRS crime statistics listed are not final and sometimes adjusted throughout the year due to re-classifications after being investigated or reports filed later by a victim daily.

The Dallas Police Department was NIBRS certified June 2018 with Crime Data from March of 2018 forward. All crime counts prior to March 2018 are calculated using the NIBRS counting rules but are not recognized as officially NIBRS and were added for comparative purposes only. In the Crime Against Society group there are offenses that didn't exist in 2017 because they were direct file arrest only, therefore greatly skewing the percent change values in that group. This also greatly affects the overall percent changes. In the Crime Category Robbery prior to NIBRS each Robbery incident counted per incident. NIBRS Robberies count each victim (All victims which includes reporting persons). Because of this counting rule prior to March 2018, we included the reporting persons from Jan 2017 - Feb 2018. Crime counts are based on UCR NIBRS rules therefore, cannot be compared to crime counts based on UCR Summary rules. These statistics are preliminary counts of the original police incident reports and may vary from the final UCR (Uniform Crime Reporting) statistics published by the FBI. The above NIBRS crime statistics listed are not final and sometimes adjusted throughout the year due to re-classifications after being investigated or reports filed later by a victim daily.

The Dallas Police Department was NIBRS certified June 2018 with Crime Data from March of 2018 forward. All crime counts prior to March 2018 are calculated using the NIBRS counting rules but are not recognized as officially NIBRS and were added for comparative purposes only. In the Crime Against Society group there are offenses that didn't exist in 2017 because they were direct file arrest only, therefore greatly skewing the percent change values in that group. This also greatly affects the overall percent changes. In the Crime Category Robbery prior to NIBRS each Robbery incident counted per incident. NIBRS Robberies count each victim (All victims which includes reporting persons). Because of this counting rule prior to March 2018, we included the reporting persons from Jan 2017 – Feb 2018. Crime counts are based on UCR NIBRS rules therefore, cannot be compared to crime counts based on UCR Summary rules. These statistics are preliminary counts of the original police incident reports and may vary from the final UCR (Uniform Crime Reporting) statistics published by the FBI. The above NIBRS crime statistics listed are not final and sometimes adjusted throughout the year due to re-classifications after being investigated or reports filed later by a victim daily.

The Dallas Police Department was NIBRS certified June 2018 with Crime Data from March of 2018 forward. All crime counts prior to March 2018 are calculated using the NIBRS counting rules but are not recognized as officially NIBRS and were added for comparative purposes only. In the Crime Against Society group there are offenses that didn't exist in 2017 because they were direct file arrest only, therefore greatly skewing the percent change values in that group. This also greatly affects the overall percent changes. In the Crime Category Robbery prior to NIBRS each Robbery incident counted per incident. NIBRS Robberies count each victim (All victims which includes reporting persons). Because of this counting rule prior to March 2018, we included the reporting persons from Jan 2017 - Feb 2018. Crime counts are based on UCR NIBRS rules therefore, cannot be compared to crime counts based on UCR Summary rules. These statistics are preliminary counts of the original police incident reports and may vary from the final UCR (Uniform Crime Reporting) statistics published by the FBI. The above NIBRS crime statistics listed are not final and sometimes adjusted throughout the year due to re-classifications after being investigated or reports filed later by a victim daily.

The Dallas Police Department was NIBRS certified June 2018 with Crime Data from March of 2018 forward. All crime counts prior to March 2018 are calculated using the NIBRS counting rules but are not recognized as officially NIBRS and were added for comparative purposes only. In the Crime Against Society group there are offenses that didn't exist in 2017 because they were direct file arrest only, therefore greatly skewing the percent change values in that group. This also greatly affects the overall percent changes. In the Crime Category Robbery prior to NIBRS each Robbery incident counted per incident. NIBRS Robberies count each victim (All victims which includes reporting persons). Because of this counting rule prior to March 2018, we included the reporting persons from Jan 2017 – Feb 2018. Crime counts are based on UCR NIBRS rules therefore, cannot be compared to crime counts based on UCR Summary rules. These statistics are preliminary counts of the original police incident reports and may vary from the final UCR (Uniform Crime Reporting) statistics published by the FBI. The above NIBRS crime statistics listed are not final and sometimes adjusted throughout the year due to re-classifications after being investigated or reports filed later by a victim daily.

The Dallas Police Department was NIBRS certified June 2018 with Crime Data from March of 2018 forward. All crime counts prior to March 2018 are calculated using the NIBRS counting rules but are not recognized as officially NIBRS and were added for comparative purposes only. In the Crime Against Society group there are offenses that didn't exist in 2017 because they were direct file arrest only, therefore greatly skewing the percent change values in that group. This also greatly affects the overall percent changes. In the Crime Category Robbery prior to NIBRS each Robbery incident counted per incident. NIBRS Robberies count each victim (All victims which includes reporting persons). Because of this counting rule prior to March 2018, we included the reporting persons from Jan 2017 – Feb 2018. Crime counts are based on UCR NIBRS rules therefore, cannot be compared to crime counts based on UCR Summary rules. These statistics are preliminary counts of the original police incident reports and may vary from the final UCR (Uniform Crime Reporting) statistics published by the FBI. The above NIBRS crime statistics listed are not final and sometimes adjusted throughout the year due to re-classifications after being investigated or reports filed later by a victim daily.
